**COMMUNITY SERVICES**

ESCROW: Wherever “escrow” is referred to in any Community Services Fee Schedule (except as it relates to ISTS pumping of a holding tank) it shall mean that the applicant shall sign an escrow agreement and pay the required escrow before the project/application request commences. Applicants shall pay the actual costs, regardless of the outcome of the project/application request. Actual costs include all County staff time and any outside consultant costs and printing, copying and mailing costs. County Staff time shall be charged at a rate equivalent to 2.1 times salary to cover fringe benefits, overhead and clerical costs. If at any time the actual costs should exceed the escrowed amount, the applicant shall remit additional funds into the escrow fund when requested by the County. If the applicant fails to replenish the escrow as requested, the County may stop reviewing the application until such time as the escrow is replenished. Any remaining funds in the escrow at the conclusion of the project shall be refunded to the applicant when all actual costs are paid and the County administration of the escrow has been completed.

The inspector may waive any and all of these additional fees for a Type II or III system involving a holding tank, the simple replacement of an existing system with a Type III system on disturbed soil, or whenever no additional	

### Individual/Community Sewage Treatment System (ISTS/CSTS) Permit Fees (continued)

County expenses are incurred. Add \$400 to the fee for any State or Federal related permit requiring County review, such as a State Disposal System Permit (SDSP) from the MPCA. Only sewage as defined in Minnesota Rules Chapter 7080 may be disposed of in an SSTS or CSTS, unless an SDSP or similar State or Federal permit is obtained.

F. Additional Permit Related Fees:

1. Property owners who have been referred to the County Attorney's Office for prosecution and charged with failing to replace a failing system may be subject to additional fees requested of the court by the Department to cover administrative costs. In addition, all laboratory and inspection costs incurred shall be billed to the applicant at the time of permit application.

2. Applications for SSTS permits which lack sufficient soils information for approval (due to weather/seasonal soil conditions) but which the SSTS inspector believes contain sufficient information for conditional issuance of a building construction permit shall be allowed to proceed through the permit process with the condition that final SSTS permit issuance approval will not be granted until complete soil information is submitted and approved. The applicant shall pay an additional fee of \$220.00 to cover the cost of follow-up inspections and review.

3. The permit fee for an installation commenced before the Department approves the permit for the site shall be double the current permit fee amount.

4. The applicant shall pay an additional fee equal to 25 percent of the applicable current permit fee when an SSTS/CSTS permit has been issued and the installation has progressed to a point that it can no longer be adequately inspected by the Department because the Department was not given sufficient notice to inspect the system.

5. The permit fee shall be one and one-half (1.5) times the normal permit fee amount when an applicant requests the Department to approve a permit less than six working days between the dates when the complete application is received and SSTS installation will be commenced (subject to staff availability).

6. Permit applicants shall pay additional fees as follows:

- a. 25% of the base permit fee each time a design must be reviewed more than once.
- b. Inspection fees as provided in Miscellaneous Fees below.
- c. 25% of the base permit fee for significant additional administration.

7. Permit Refund Policy. Permit fees will be refunded for County costs not incurred for both issued permits and for permit applications that were received but never issued. The costs incurred shall be calculated as outlined in a-c below. The maximum refund amount shall be 75% of the base permit fee. Any additional permit related fee assessed over the base permit fee is not refundable, including but not limited to permit renewal and penalty fees.

- a. 25% of the base permit fee for a design review.
- b. Inspection fee as provided in Miscellaneous Fees below.
- c. 25% of the base permit fee for administration

8. An SSTS permit is valid for one year after the issuance date. The applicant shall pay an additional fee equal to 25 percent of the applicable current permit fee to renew a permit for one year (50 percent if the permit is renewed for two years). The renewal period begins on the anniversary of the initial issuance date. The permit becomes void three years after the initial issuance date or earlier if the applicant fails to pay an annual renewal fee, as required. The applicant may be subject to additional fees if there are design or location changes from the original permit or if an additional inspection(s) is necessary.

9. An owner or a representative of the owner shall obtain a signed pumping agreement (subject to approval by the Inspector) with an MPCA licensed pumper in order to occupy a new home or other structure before the SSTS is fully operational (as determined by the Inspector) and pay a fee equal to \$30.00 per month starting the month of the proposed occupancy through the forthcoming month of June. The maximum fee is \$180.00 and it is not refundable unless a refund is requested and the refund amount is \$120.00 or more as calculated on a per month basis. However, additional fees may be assessed for any violation of the pumping agreement that results in an inspection or additional administration.

<b>Notes</b>			
<p>1. The following wastes are not subject to Generator license or application fees if they are managed in accordance with the requirements of the Scott County Hazardous Waste Management Ordinance:</p> <ul style="list-style-type: none"> <li>A. Aerosol containers.</li> <li>B. Compressed gas cylinders.</li> <li>C. Dental amalgam being recycled.</li> <li>D. Electronics.</li> <li>E. Hazardous wastes which are subject to the requirements of Minn. Rules part 7045.0255 pertaining to one-time disposal.</li> <li>F. Scrap metal.</li> <li>G. Universal Wastes listed in 40 CFR Part 273 that includes batteries, lamps, mercury containing wastes, and pesticides.</li> <li>H. Used film.</li> <li>I. Used oil and petroleum filters.</li> <li>J. Used oil which does not contain a hazardous waste per Minn. Rule Chapter 7045.</li> <li>K. Wastes generated as a result of a response action.</li> </ul> <p>2. The license and application fees will not be assessed to those Very Small Quantity Generators (VSQG) that qualify as Minimal Generators. Minimal Generators will be assessed a one-time Registration Fee. Generators that meet the waste type and volume requirements to be a Minimum Generator but do not otherwise qualify to be a Minimal Generator shall pay the appropriate standard generator fee.</p> <p>3. For the purpose of fee calculation, 10 pounds = 1 gallon.</p> <p>4. Fees are not prorated. Generators who generate hazardous waste in any part of the license year (April 1st to March 31st) shall pay the full license fee for that license year.</p> <p>5. All generators are subject to penalty and reinspection fees.</p>
