

Community Alternative Care (CAC) Waiver Program

A home and community-based services waiver

What is the CAC Waiver?

The CAC Waiver offers services to help eligible people live as independently as possible in community settings.

Who is eligible?

Participants on the CAC Waiver must:

- Be eligible for Medical Assistance (MA)
- Be certified disabled by the Social Security Administration or State Medical Review Team (SMRT) process
- Be under the age of 65 at the time they are authorized to receive the CAC Waiver
- Be assessed through a screening process and determined to need the level of care provided in a hospital
- Be certified by the primary physician to meet the level of care provided in a hospital
- Have an assessed need for supports and services beyond those available through a standard Medical Assistance (MA) benefit set.

What services are offered?

In addition to the full range of services traditionally covered by Medical Assistance (medically necessary hospital care, physician care, prescription drugs, dental services, therapies, counseling, medical transportation), the CAC Waiver offers a variety of services based on need such as:

- Consumer Directed Community Supports (CDCS)
- Family training and counseling
- Foster care
- Modifications and adaptations
- Respite care

Participants can receive these services while living in their own home, the home of a relative or friend, or another community setting, such as a licensed foster care home.

Will these services take the place of other funding sources?

No. CAC Waiver services supplement, not replace, other funding sources such as insurance, Medical Assistance and Medicare.

What happens when the CAC Waiver participant reaches age 65?

People who receive CAC Waiver services may choose to stay on the waiver when they turn 65 years of age or go onto the Elderly Waiver (EW).

How do people apply?

People who are interested in receiving CAC Waiver services should contact the county social services agency to ask for a screening or additional information.
